VocabularyCity mission is to facilitate the development of vocabulary, phonetics, and writing skills through a word study tool that allows differentiated instructions while working with vocabulary and spelling word lists. The site has been particularly useful in engaging struggling students, facilitating English vocabulary skills with ESL students, building a school-home link, and simplifying teachers and parents administrative activity. The most popular learning activities are the word unscramble, wordsearch, executioner, crossword, alphabetic practice, grammar, practical handwriting worksheets, and writing activities. Learn more about getting involved Renting & selling homes near this school This school is rated below the average school quality compared to other schools in New York. The students here are doing below average year-on-year academic improvement... Moreover, this school has below average results in how well serving disadvantaged students, and students perform below average on state tests. Students at this school are making less academic progress, given where they were last year, compared to similar students in the state. Low progress with low test scores means... that students start at a low point and fall further behind their peers. Parents' advice Test scores at this school drop well below the state average. This suggests that students at this school are likely not to perform at the grade level. Parent Tip Do you notice something missing or confusing? The equity of disadvantaged students at this school may be falling far behind other students in the state, and this school may have large achievement atlas. Parent Tip Student Results by Percentile Low Income Students and Subservience All other students in the school environment Posted May 30, 2019 Presented by a very very very very good parent Posted May 22, 2019 Presented by a parent I would not send any of my future children or I would not send anyone to this school in its current state of leadership and operations. There's no sense of security here. Posted August 20, 2018 Presented by a parent I did not have many problems with the school. Reception can be a little blunt and a little aggressive at times. He's not friendly at all. My son is now in 7th grade, and I didn't have anyone to be liked. The parent coordinator is a wonderful person, however, it can be a little hard to get a hold of. The sixth grade for my son was brutal, although it wasn't his teacher's fault. My son and I kept getting fired by the principal and assistant principal on the issues my son was having, academically, because of the lack of experienced teachers assigned to the class. Making it look like my son's making things up. was until I mentioned having my son transferred that they were able to give me real answers. I should have transferred him from there to another middle school. They are also not allowed to walk around during lunch, they can't hang out with friends, if in another class. Class. They don't have any freedom in school. Posted May 26, 2011 Submitted by a Parent Regarding Teachers, I have no complaint. They're great. But one thing that should be changed is the supposed Quiet Lunch Time they have. Kids have to shut up in class to learn. But why do they have to shut up while they're having lunch with their friends? That's why they become anxious in class. For starters, some classes aren't even allowed outside to run around. I see older students and even pre-K (private playground) playing, but my kid doesn't come out to play. I'm told class comes straight back to class after lunch. can children stay in shape if they are not given at least half an hour to run outside and play? I remember the vacation was fun. You had lunch, you talked to your friends, and then you went to follow us! The safety issue is also a problem, as the previous parent stated. Safety agents just care about food and good looks. Every time I see one they are stuffing their face or just standing there while the kids run and go crazy in front of you during the layoff. If they have to have a quiet lunch, they should impose quiet dismissal and not have them take down younger children or hurt people. N/A Posted May 3, 2010 Presented by a Parent This School, and the principal really need to change a lot of things that go on there! They feel good to have kids unattended in the morning. If it's cold, your children wait in the cold while the headmistress and her staff are nice and warm in the doors.drinking coffee and eating food. (How beautiful) Well, if you have more than one child who is grd 3 & up they must be in school 8am give 8am.now that's fine... But if you have kids who are in Pre-K-2grd they go in at 8:10 well that's what they say... sometimes let the children in at 8:17am. So, if its cold, raining, bad weather you have to wait in the side. I won't let the kids in. Now, if you are a working parents and have to be at work for some time your children are left unattended in the school part. Yes unattended No safety agents, no parent volunteering anything !!! when you bring him into schools attention all they say is ..." Parents need to stay and upset their children." Now mined you the hall is free at that time. no one is using it! So why don't you let the kids stay in theirs, why don't you give them shelter from bad weather ????? They say they don't have staff to watch the kids... and the prince dose do not want the auditorium to be used for it ! .. So why when parents offer to volunteer say no. we can't depend on volunteers, plus the auditorium isn't meant for that!. (Not cool) So, that's all that! If you have a job. you need Leave your kids unattended side of school and hope and pray nothing bad happens! Pray your children don't get sick from the cold or the rain. Pray that no one comes to kidnap them outside the school part. Now the sad part is the teachers are great. they are wonderful. But they can't do everything. Plus the rate of kids fighting and rate how many kids get bullied is unbelievable. My children see at least 4 fights in a day! And that's on a good day! Dismissal is crazy !!! Children destroying everywhere. Again, no one to supervise. have safety agents, but remain in... her from time to time, when its nice get out the party to talk to the parents, so please parents think wisely about this school. Safety is #1. With a safe environment you can feel at ease while working or at school, can your children learn if they don't feel safe. this school gets a 0 from me. Shame, Shame Stop & Shop and P.S. / M.S. 105 Food Pantry Ribbon Cutting Stop & Shop and P.S. / M.S. 105 cut the ribbon to their new school-based food pantry. NEW YORK, October 17, 2019 (GLOBE NEWSWIRE) -- In an effort to reduce hunger among students in the communities it serves, Stop & Shop, a neighborhood waner over 100 years old, donated \$10,000 to help launch a school food pantry at P.S./M.S 105, The Bay School in Far Rockaway, Queen. Almost 80% of students attending PS/M.S 105 are classified as living below the poverty level. School officials say about 70 families are new to the school and either live with extended family, friends or in family shelters and need food and personal hygiene products. We have established a food pantry in the school building that will give families who need access to the care they need, said Benham Nadjimbadi, student and temporary housing coordinator at PS/M.S. 105. Through the generosity of Stop & Shop, we will be able to offer families in need canned food, dry, non-perishable products and micro-wadevable food, as those living in family shelters do not have access to stoves. For families with refrigerators, we will be able to offer milk and eggs. We will also be able to provide them with soap, toothpaste, toothbrushes, deodorant, shampoo and sanitary items. Stop & Shop has made \$10,000 worth of gift cards available to the school so they can shop for the specific products that families have identified as most needed. Nadjimbadi and other school members will use gift cards to purchase products from stop & shop stores in the area to store the school's food pantry. Stop & Shop is so excited to be able to assist educators at P.S./M.S.105 and provide students and their families with food, said Carlos Ramos, Director District Stop & Shop for New York City. A student can't succeed in the classroom if they come to school hungry and you have to worry about where their next meal is coming La. The generosity of Stop & Shop is highly appreciated, said the director of P.S. / M.S. 105 Laurie Shapiro. Many of our students and their families are unsure because of their food, and Stop & Shop management allows our school to provide them with the assistance they need in a very respectful way. Respectful. A well-nourished body leads to a well-fed mind. Our students need proper nutrition to maximize their learning potential, and no one should be left to go hungry. These are just two of the many reasons why this program is so important, said Senator James Sanders Jr. Thank you for the Stop & Shop for his generous donation that made this program possible. It is always great to see local businesses working with the community to bring healthier food into schools and we want to make more of this. It gives me great pleasure to know that, as one of the most important businesses in our community, Stop & Shop would be so interested in the well-being of our students. This has an effect on every student who cannot get enough food to support their health, nutrition and ability to concentrate, said Willie A. Jones Sr, President of the Educational Council of CEC 27. I would personally like to thank Stop & Shop for the donation for this cause. I pray that other businesses in our community take note of how you have come to those who are less fortunate and decide to follow your example of humanitarian information for those in need. May God bless Stop & Shop for what it does in our community. P.S. / M.S.105 marks the first Stop & Shop School food pantry in New York. The company hopes to work with more schools in the future. About Stop & Shop A neighborhood shop for over 100 years, today's Stop & Shop is refreshed, reenergized and inspired, offering new facilities for customers. Committed to helping their communities enjoy better nutrition and a better life, Stop & Shop has a long history of giving back the neighborhoods it serves, with a focus on fighting hunger and helping children enjoy a healthy lifestyle. Stop & Shop Supermarket Company LLC is an Ahold Delhaize USA company and has nearly 60,000 associates and operates over 400 stores in New York, New Jersey, Connecticut, Massachusetts and Rhode Island.
